Every planet in the Universe has its own special and wonderful sounds -- sounds that people on all the other planets never get to hear!

The planet Bazorbabill is a wild and exotic planet ... full of strange sights -- and very strange sounds.

Have you ever heard the sounds of the planet Bazorbabill?

Listen for a moment! See if you can hear the sounds of planet Bazorbabill.

Do you hear them?

Where the snopple-trees grow, you can hear the roar of a thundersnoot –

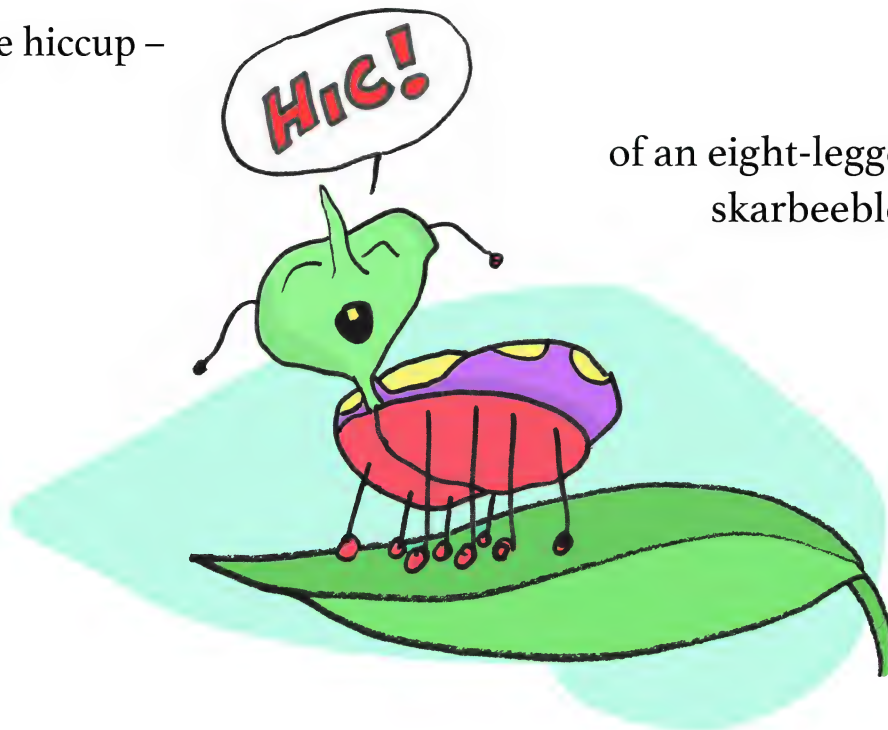

You can hear
the snores of a
sleeping
rumpfsnerdel ...

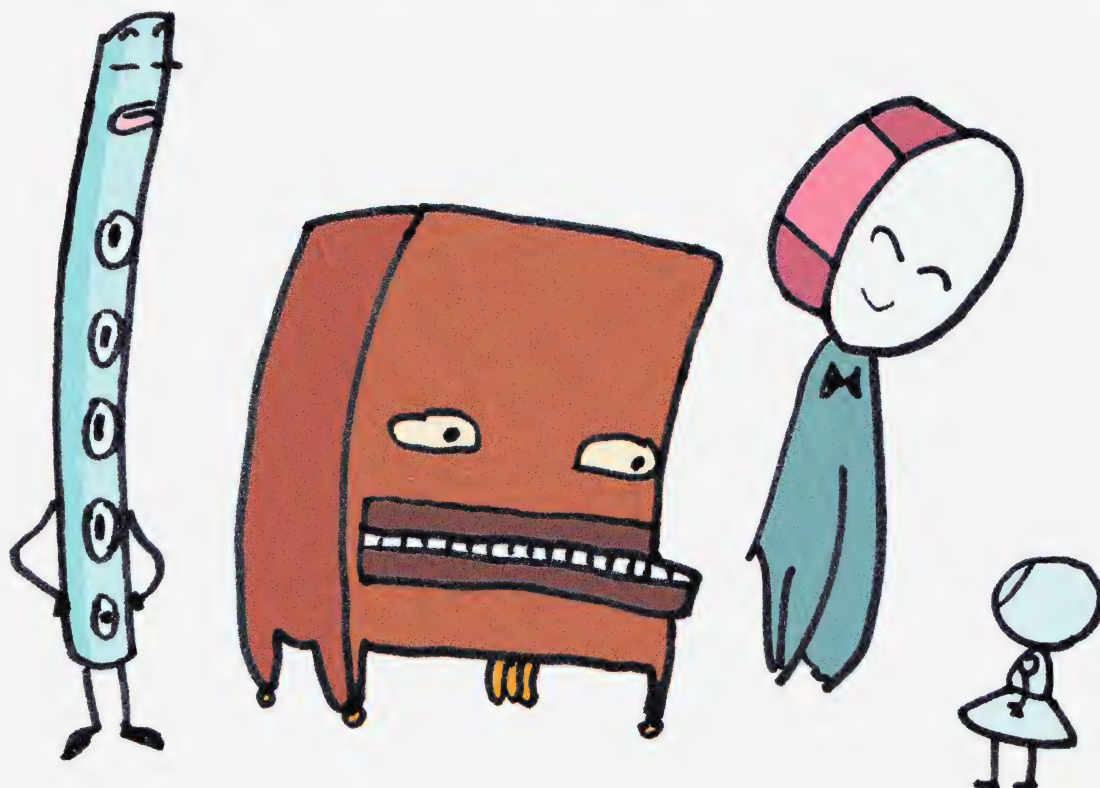

The hoot of a
rambunctious
flingerbling ...

Or the hiccup –

of an eight-legged
skarbeeble.

“It’s back! It’s back! I’ve got my beautiful buzz back!” says Skreet, flying happily through the air.

“But, Mr. Vakyoomapotamus, why do you look so sad?” asks Mary Farfisa.

“I’m sad because Queen Silencia still has all the sounds I sucked up yesterday, locked up in the tower of her castle! And she’ll never let them out! And, even if I don’t suck up any more sounds for her, she can always find another Vakyoo – M-M-M-Makyoo - V- V-V- Vamakyoo –

“Vakyoomapotamus,” says Briscoe.

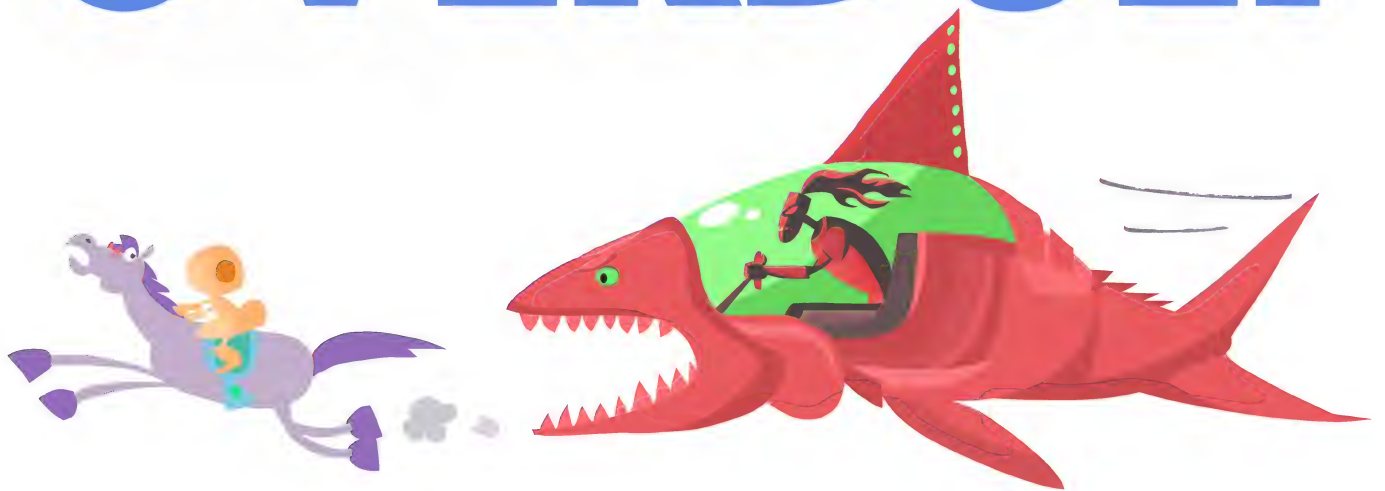

“Then we have to find Queen Silencia, and convince her to stop doing this!” says Mary.

“Oh, you can’t do that!” Skreet warns. “Queen Silencia is very bad-tempered! And she won’t listen! As soon as you start to say something, she’ll say: “SSHHH!!! Quiet, you!”

But Mary Farfisa has made up her mind! She’s not going to let all the wonderful sounds and songs and music of Bazorbabill be sucked up and silenced, and never heard again!

So -- off she goes, with Briscoe and Skreet, to the castle of Queen Silencia.

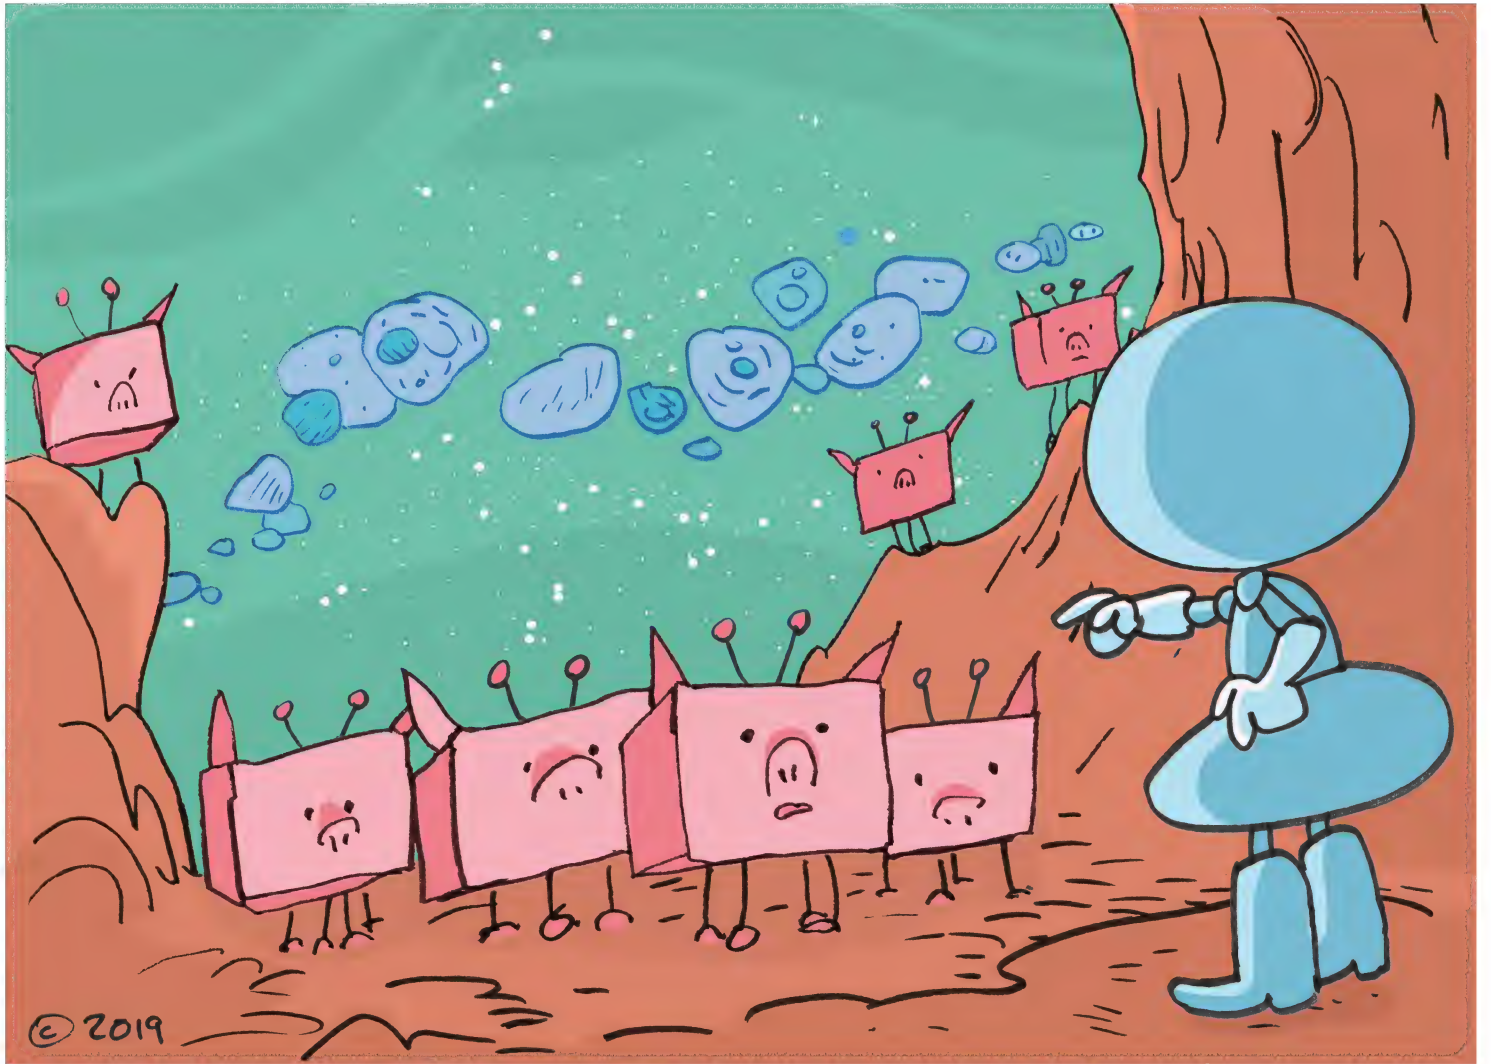

OVERDUE!

ART DAY

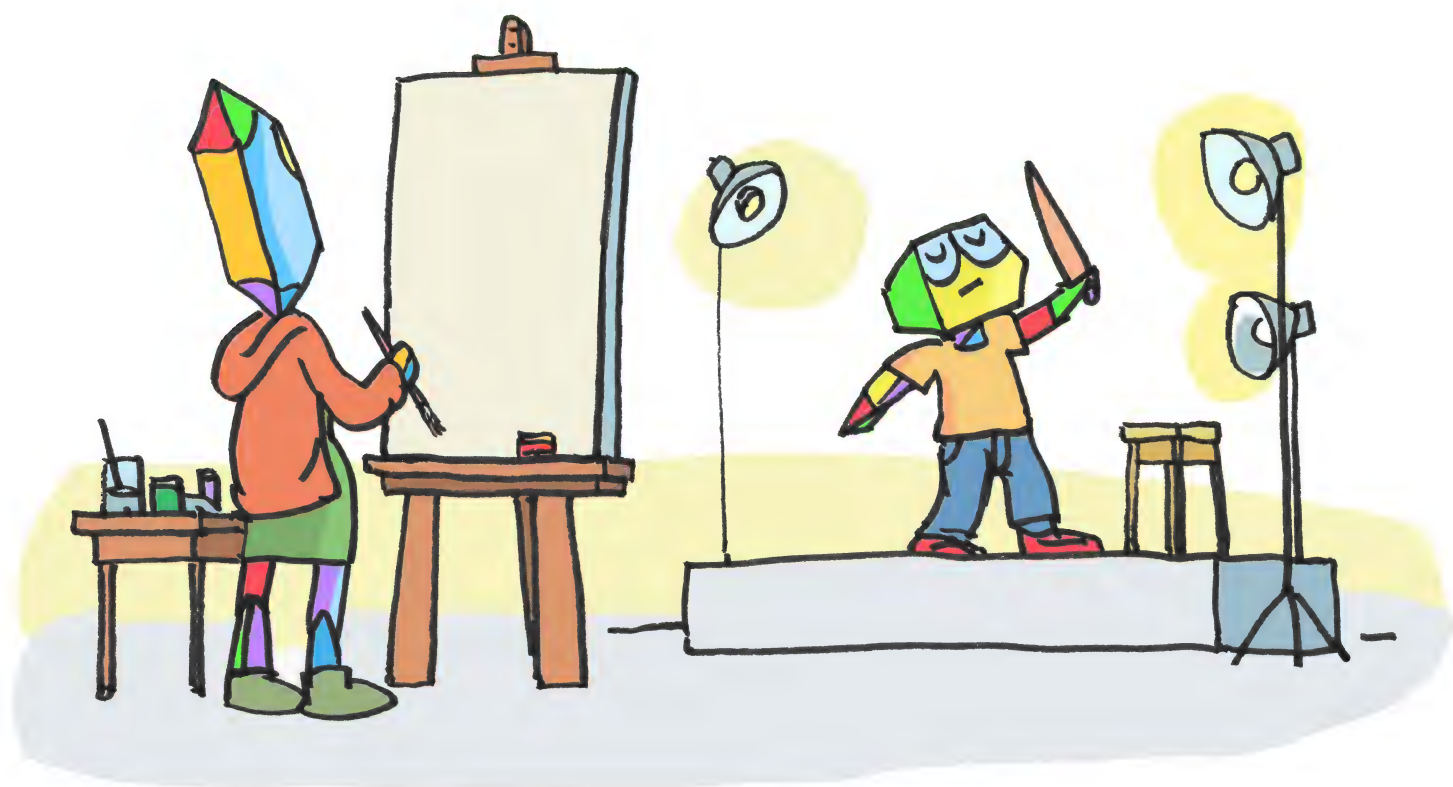

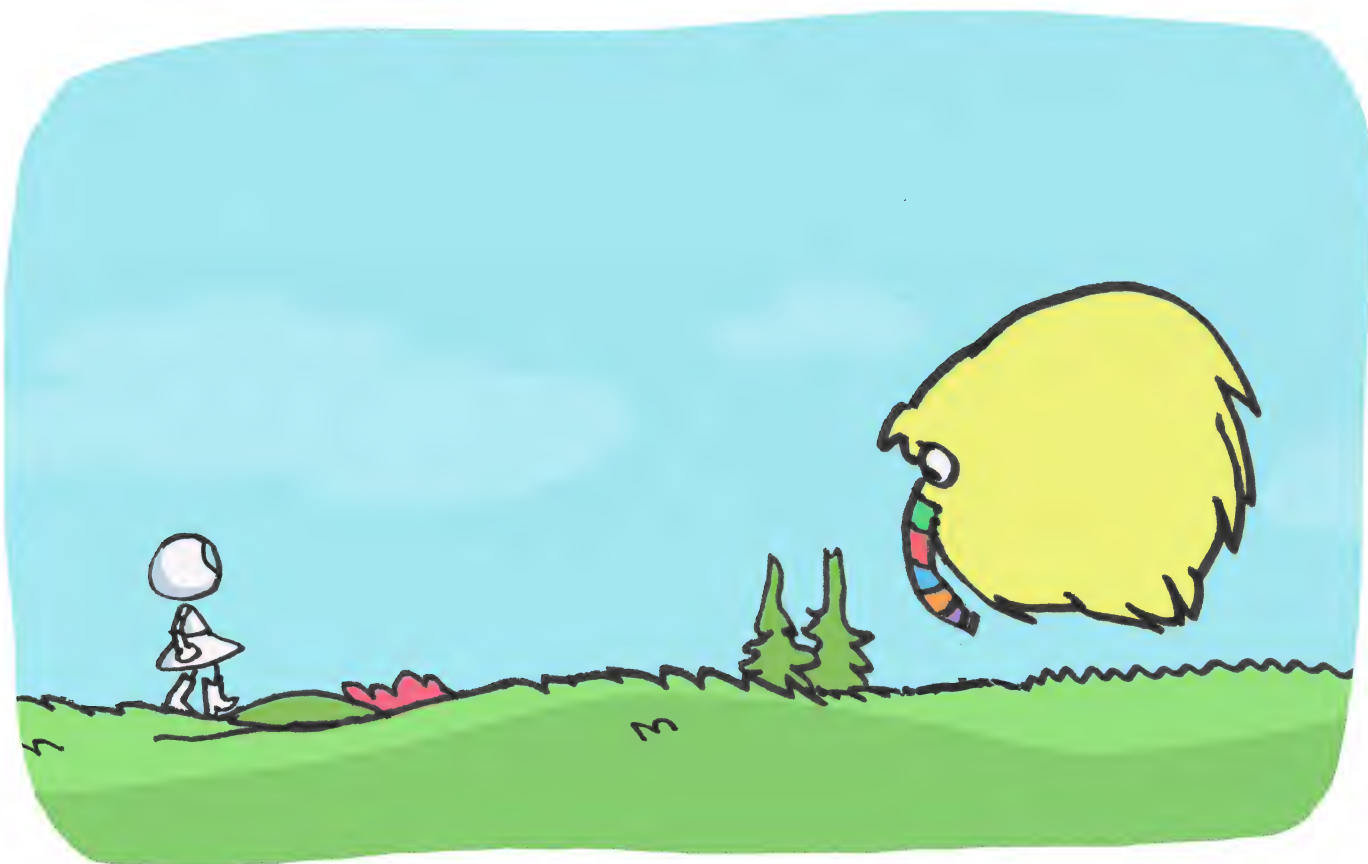

It seems to be coming
from over here...

Bruscoe! look at the clay kitty I made!

It's so real, it's almost alive!

There are legends about creatures called "Golems." They were made out of clay, but brought to life by magic.

Gollums?
Like in
'Lord of the Rings'?

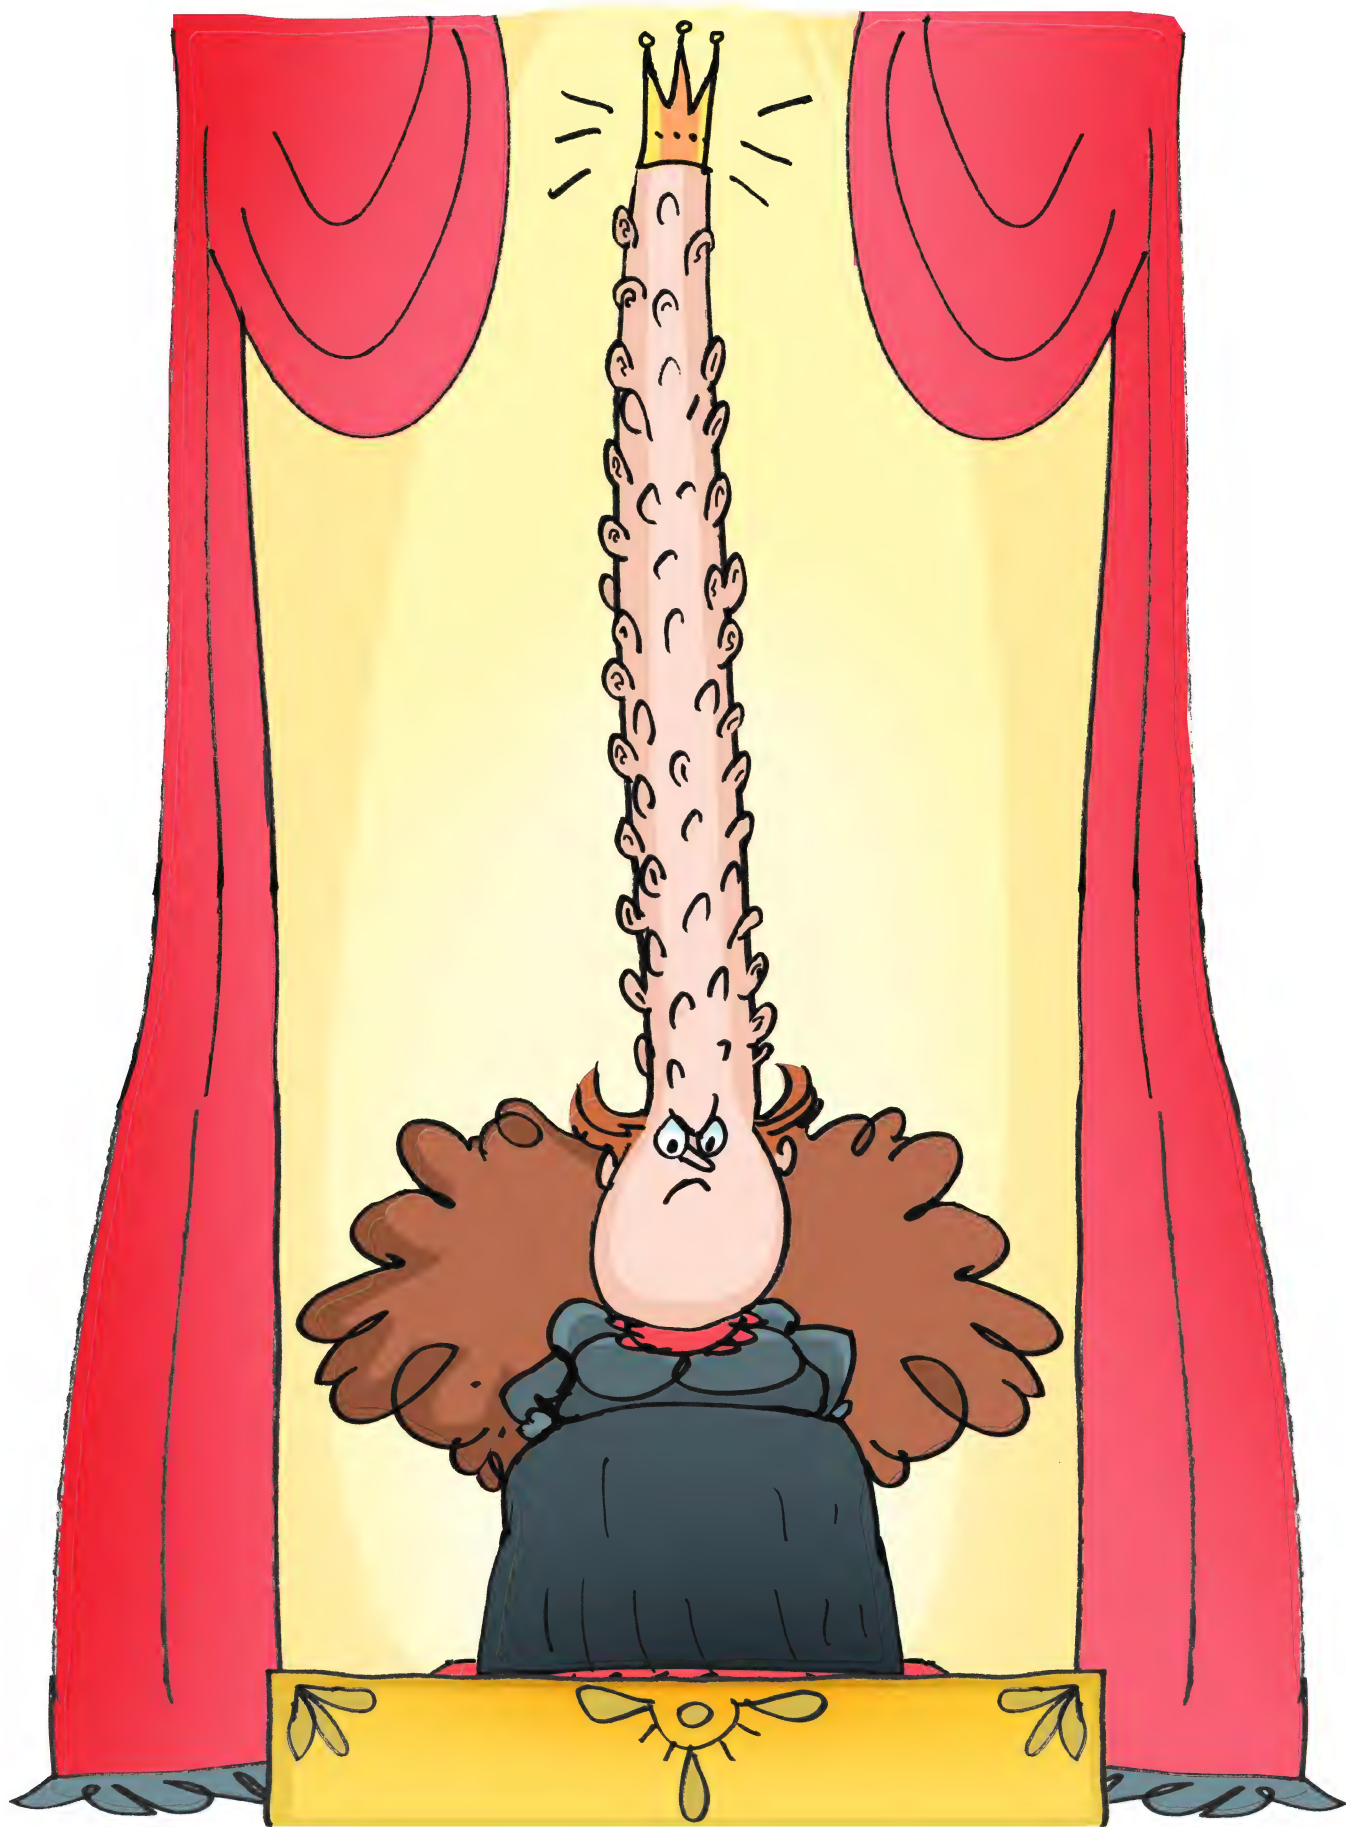

No,
"Golems."

I don't know about magic, but I think my clay kitty is really good.

See?

I'm reading a book about
Space Dolphins, and
I'm learning a lot!

Space Dolphins are super-smart! And
the thing they like most is music!

This is a picture of a Space Dolphin string quartet.

They love
the sound
of violins.

This is the
Conductor of
a Space Dolphin
orchestra.

Many Space Dolphins are
fond of the sitar,

But the most famous Space Dolphin musical act was a rock and roll band ...one that went on to make music the Galaxies will never forget!

©2019 JIM CHEFF

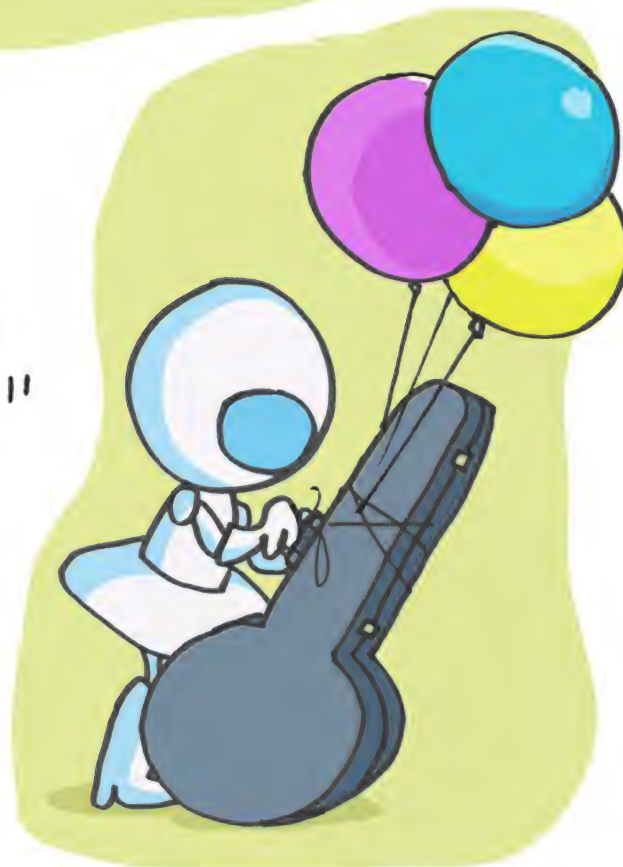

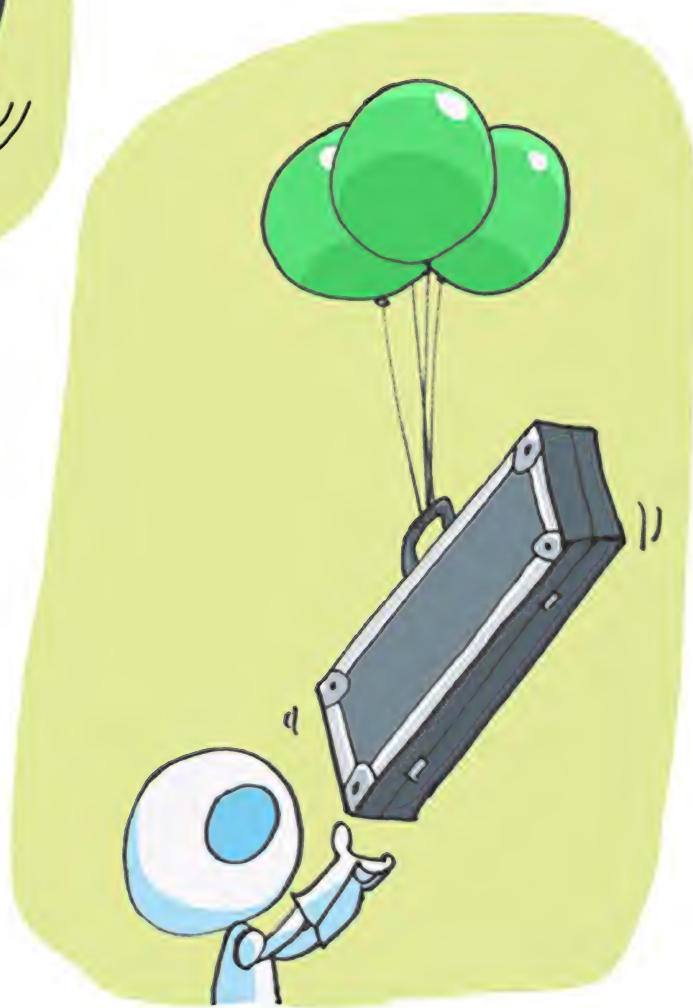

I have a feeling that Briscoe and I are going to meet a Space Dolphin someday!

P.S. -- Thanks and welcome to our new subscribers!
